

# Chetan Gehlot

## Web Developer

[chetangehlot2003@gmail.com](mailto:chetangehlot2003@gmail.com) [in /in/chetan-G](https://www.linkedin.com/in/chetan-G)

## SUMMARY

I have always been fascinated by how things work on the internet—whether it's websites, applications, or interactive experiences. Ever since I was first introduced to computers, I've been curious about their inner workings, which led me to dive deep into coding and web development. Over time, this curiosity turned into a passion for crafting seamless, engaging, and high-performance user experiences. As a frontend developer, I specialize in building modern, responsive, and visually appealing web applications using technologies like React.js, Next.js, TypeScript, and TailwindCSS. I'm always eager to push my skills further, explore new innovations in web technologies, and create solutions that make a real impact.

## SKILLS

HTML, CSS  
Javascript,  
Remix.js

ReactJS, NextJS,  
RestAPIs  
NodeJS, ExpressJS, MongoDB (Basic)

Typescript,  
Svelte (Basic)  
Git/Github

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Jan 2023 - Present

[Softcolon Technology Pvt. Ltd.](#)

As a frontend developer, I focus on crafting intuitive and engaging user interfaces while continuously refining development processes. My role involves collaborating with cross-functional teams to enhance application performance, streamline workflows, and create impactful digital experiences. This journey has allowed me to deepen my expertise in modern web technologies while contributing to meaningful projects.

### FullStack Developer (Internship + Training)

Aug 2022 - Dec 2022

[Softcolon Technology Pvt. Ltd.](#)

At Softcolon Technology, I actively explored both frontend and backend development, working on real-world projects that strengthened my understanding of web applications. I contributed to optimizing project workflows, enhancing UI responsiveness, and improving backend functionality. The experience deepened my problem-solving skills and reinforced my passion for building seamless digital experiences.

## EDUCATION

### Bachelor of Computer Application (BCA)

C.U Shah institute Of Computer Application  
(Gujarat University)  
7.5 CGPA | 2023
